SARASWATHY G

Product Designer · UI/UX Designer

Chennai, Tamil Nadu | +91 99405 74819 | saraswathygunasekaran04@gmail.com | Portfolio | LinkedIn | Dribbble

PROFESSIONAL SUMMARY

UI/UX and Product Designer with 3 years of end-to-end design experience, specialising in stakeholder collaboration, conceptual design, wireframing, clickable prototyping, and usability testing. Proven track record of translating complex business requirements into intuitive, user-centred digital products across cybersecurity, HRM, and enterprise platforms. Skilled at communicating UX rationale to cross-functional teams, facilitating design ideation and prototype reviews, and managing UX delivery schedules in fast-paced agile environments.

WORK EXPERIENCE

UI/UX Designer

Oct 2023 – Dec 2025

Saptang Labs · Chennai

- Collaborated directly with business stakeholders and project leads to define UI requirements and deliver end-to-end interface designs for enterprise cybersecurity platforms on schedule.
- Developed conceptual design solutions and creative UI approaches for complex threat-detection workflows, translating technical security data into clear, actionable dashboards.
- Facilitated design ideation sessions, wireframing workshops, and prototype reviews with cross-functional team members; communicated UX rationale and design decisions clearly to both technical and non-technical stakeholders.
- Planned, designed, and delivered low-fidelity wireframes and high-fidelity clickable prototypes for multiple product modules using Figma, maintaining a shared component library that improved team design velocity.
- Tracked UX delivery milestones, proactively flagged schedule risks to the project team, and proposed mitigation plans to keep deliverables on track.
- Conducted heuristic evaluations and moderated usability testing sessions, incorporating findings into iterative design improvements that reduced user error rates across key analyst workflows.

UI/UX Designer

Jun 2023 – Oct 2023

Totality Corp · Remote

- Created wireframes, mockups, and interactive clickable prototypes to visualise user interface and experience flows for web and mobile products, enabling rapid stakeholder validation.
- Communicated UX methods and design rationale during design critiques and client review sessions, aligning team members and stakeholders on proposed solutions.
- Applied responsive design principles to ensure consistent cross-device experiences; handed off annotated design specifications to engineering teams.

UI/UX Designer

Jan 2023 – Jun 2023

ABSHRMS Pvt. Ltd. · Chennai

- Designed user-friendly interfaces for HR management software modules (onboarding, attendance, payroll), creating wireframes, clickable prototypes, and final UI specifications.
- Restructured complex HR workflows using information architecture principles, reducing task completion time during usability tests.
- Supported ideation sessions and prototype reviews with product leads and end-users to validate design solutions before development handoff.

SKILLS & TOOLS

Figma	Wireframing	Clickable Prototyping	Usability Testing
Conceptual Design	User Flows	Information Architecture	Design Systems
Interaction Design	Competitor Analysis	User Research	Design Specification
Stakeholder Management	Agile / Design Sprints	WCAG Accessibility	Responsive Design
UX Strategy	Design Handoff	Heuristic Evaluation	Solution Ideation

EDUCATION

B.Sc. Computer Science *2018 – 2021* Anna Adarsh College for Women, Chennai

CERTIFICATIONS & COURSES

Complete Web & Mobile Designer 2022: UI/UX, Figma & Product Design *Dec 2021 – Feb 2022* Zero To Mastery Academy

Master Digital Product Design: UX Research & UI Design *Nov 2022 – Jan 2023* Udemy
